

MOBILE SUBSTANCE USE EDUCATION TRAILER

This state of the art trailer is equipped with interactive technology and displays that increase awareness of the dangers of opioids and other drugs.

Interactive Components Include:

- Educational Games
- Impairment Goggles
- Roadster cart that simulates the effects of different substances
- Video testimonies of individuals & families affected by substance use

Other Uses Include:

- Clinical assessments & brief interventions for those seeking help
- Community Narcan® trainings and distribution

To schedule the Mobile Education Trailer to come to your school, business, event, or community - contact us at:
